Warning:

This air compressor has been designed exclusively for bleeder type pneumatictools.

Special caution:

Ensure that every screw nut is got tight.
Any air leakage will let down the compressor application.

Features & Function:

Unique equipment for coating with paint with a professional result. Intelligent solution in spraying and paintbrush jobs or inflation of a car tyre. The constant and sufficient performance (air output) is secured by a diaphragm that has several times longer service life than a classic piston. High quality of spraying, almost noiseless operation, and low weight—all these are possible with a diaphragm motor. Of course very low energy consumption!
